

## Acrylic Painting Supply List

Instructor: Fab Bianchi

Email me at [fabzart@yahoo.com](mailto:fabzart@yahoo.com) with questions

### PLEASE BRING ART SUPPLIES TO WORKSHOP!

If you have other paint supplies, bring those as well

**Paints:** These can be purchased individually or in starter sets, which usually have enough colors for mixing. If you get a set, you may need to get a few extra colors. Either way, please make sure to get the following colors:

- Titanium white
- Ivory Black
- Raw or Burnt Umber
- Ultramarine Blue
- Cadmium Yellow Medium
- Alizarin Crimson or Quinocridone Red

**Brushes:** If you have any brushes OR none at all, make sure to bring a variety of different types and sizes (bristle or synthetic fibers, doesn't matter). You can buy brush sets at any craft store (Hobby Lobby, Michaels, AC Moore, Jerry's Artarama) and online (links at the bottom).

**Also, make sure to get a filbert brush** (fibers form a flat shape but rounded off at the tip):

### Supports (many stores sell in packs which might save you a little money):

2 stretched canvases, minimum size of 11"x14"

Pad of Bristol board minimum size of 9"x12"

Pack of canvas panels (usually in packs of 3 to 5), minimum size of 11"x14"

**Palette (what you mix your paints on):** Pad of palette paper or a plastic palette box with a lid lined with palette paper. Alternative: freezer or wax paper taped over a clipboard.

**Palette Knife:** A metal palette knife with a crooked neck and a smallish triangular blade with a pointed or slightly rounded tip, size 2 or 4. Alternative: plastic ones are ok, which you can buy in a pack.

### Other supplies:

Paper towels or soft rags

Tape (masking or painters tape)

Ruler, Pencil and Eraser

Apron or old clothes to wear during class

Small spray bottle

1 large plastic container for water

Acrylic Gloss Medium (liquid, not 'gel'): Mod Podge and Liquitex are typical brands.
