

Intro to Color and Painting Materials List

Supply List: \$25/student

Approx 11" x 14" Bristol board (or mixed media paper)

Paint brushes

Tempera paint (blue, red, yellow, black, white)

Cups for water

Disposable paper palettes

Acrylic paint (blue, red, yellow, black, white)

Canvas paper

Small canvases

In this class students will learn

1. Basic color theory including color wheel, how colors affect each other and create "mood" in paintings, as well as how to mix colors.
2. How to use two water mediums: tempera paint and acrylics.

Intro to Drawing Materials List

Supply list (about \$15 per student)

11" x 14" drawing paper

Graphite pencils (HB/2B)

Kneaded erasers

Pencil sharpener

Roller ball/Sharpee fine point pens

In this class students will learn

1. Three-dimensional drawing: Through the review of 12 concepts, the children learn: foreshortening, contour lines, basic perspective, size and other concepts that help make their drawings look 3D, fostering their imagination to create something they do not physically see.
2. Realistic drawing: Using the proven methods of Dr. Betty Edwards, "How to Draw with the Right Side of the Brain," I teach children "how to see" so they can do a realistic drawing.
