It's Just Rocket Science (Grades 3-5): Described as “part Mr. Wizard and part Mr. Rogers,” Doktor Kaboom uses the excitement of rocketry to present Newton's Laws of Motion in multiple, over-the-top, demonstrations. Each of Newton's 3 laws is clearly explained, comically demonstrated, and followed by a DIY project that students can do as a class, in groups, or individually. 3 Laws, 3 lessons, 3 projects! Throughout the course, Doktor Kaboom intersperses the lessons with discussions on safety and personal empowerment. Of particular focus here is using rocket science to prove that “science is for everyone, not just the person who wins the science fair every year.” Ties directly to new science standards. Includes printable materials for worksheets, discussions, and multiple student demos for each section. This is the perfect program for introducing or reviewing the physics of motion.

The Velveteen Rabbit (Grades K-3): A child's love of his favorite toy literally brings this story to life. A little boy awakens Christmas morning to discover a Velveteen Rabbit among his gifts. Adored at first, then cast to the toy box, the Rabbit is snubbed by the other toys for being old-fashioned. Over time, a friendship blossoms. The Velveteen Rabbit learns what it means to be truly loved by the Boy - and the smiles and tears that come from being "real". Adapted from the classic book, this poignant story has charmed generations of families and continues to be cherished by audiences today.

GRIMMZ Fairy Tales (Grades 3-8): Brothers put a spin on classic fairy tales in this hip-hop revelation for the younger generation. Jay and Will Grimmz, the hip-hop fable story dance-pop sensation, have come back home to the city where they grew up to give a concert. They're known not just for their sounds but for their powerful storytelling, an inventive remix of familiar classics. The brothers put a modern spin on valuable life lessons in Snow White and the Seven Shawties, Down with Rapunzel, Hanzel & Gretel: Lost in the Hood, and their brand new release based on Rumpelstiltskin. Pay your bling, hear them sing and get ready to drop the mic in this unforgettable theatrical experience.

My Wonderful Birthday Suit (Grades K-3): A surprise birthday party gives three children something truly amazing to celebrate - their differences. Rainbows, moonbeams and a bit of birthday magic make for a super-fun party! But friendships are questioned when judgements and comments about skin color slip out. By sharing experiences, the children learn important lessons about understanding and acceptance that pave the way to forgiveness. This spectacular story told with music, an awesome puppet named Bobo the bird and the wonder of a magical Thinking Tree will give everyone something to ponder. Each of us is a gift “wrapped” in our own unique way but it's what's on the inside that truly makes us special. This powerful conversa-tion-starter proves that you’re never too young (or too old) to be kind.
