

MATERIALS LIST : Gelli Plate Monoprinting (Luna Lee Ray)

***One 5" x 5" or 6" x 6" Gelli plate- best price/availability on Amazon

***Acrylic paints: I HIGHLY recommend using slow drying acrylics; Golden's OPEN acrylics are perfectly suited to Monoprinting. You could just get a red,(or magenta) , yellow, blue, and white, or more if you'd like. I'll have additional colors for you to try too. If you have regular (heavy body) acrylics and want to try those first you can, but they won't work quite as well.

***Brayer: one Speedball deluxe 4" soft rubber brayer - also from Amazon. Jerry's and AC Moore SOMETIMES have these in stock.

***Paper : One pad Canson XL Mixed Media pad- 7" x 10" size- also easiest from Amazon. I'll have some other papers for you to use as well.

You'll also need:

Palette knife

Some assorted paintbrushes- I like small flats.

Water jar

Paper towels

Any rubber stamps you might have

Textured fabric, string, bubble wrap, etc...anything that might make an interesting texture

Any questions please email: lunaleeray@nc.rr.com
